# SILVER PLATED SPEAKER CABLE

## SILVERLINE 15

 1.5 MM<sup>2</sup>
**MSRP (19%): 6.99 €**

High-quality stereo loudspeaker cable for connecting amplifiers and power amplifiers to loudspeaker boxes. This loudspeaker cable is suitable for amplifier performances of up to around 120 watts of power per amplifier channel. This Oehlbach cable's outer sheath consists of a tough and flexible mix of plastics. At the same time, the inner conductor is made up of many individual wires that in turn have been twisted together to form bundles and thus produce a cable, which is extremely flexible and thus easy to lay. Oxygen-free copper (OFC) – which is known for its excellent transmission qualities – has been used as the inner conductor's material.
